

1/26/21 COATD Technology SIG notes from 730-0900

Attendance:

Teresa Stevenson	Dick Pfister
Michelle Stiver	Lisa Poulin
Sarah Gillam	Kevin R
Todd Remer	Leslie Junk
Russell Cotter	Sarah Esala
Randy Meredith	Joe Suarez
Sherry Hill	Seema Patel
Garrett Kowalski	

**Best Piece of Advice and Why:**

“Every pot has a lid”

“Is not what you say – it’s how you say what you say”

“Let it go”

“The only thing you can really control is within a 3ft radius”

“You get what you give”

“Fix your core”

“If you can’t time to do something right – don’t start”

“Worry is the misuse of the imagine”

“Don’t be afraid to make the leap”

“Make sure you have realistic expectations.”

“Everything happens for a reason”

“Find out who you are, and do it on purpose”

“If you only have one belief, it will eventually become a falsehood”

Keep your promises”

“Wait for someone to start repeating themselves before trying to think of a resolution”

**Cornerstone Custom Pages:**

Kevin shared a demonstration on how to create a custom pages within the Learning Management System – Cornerstone.

It included:

Using the Cornerstone widgets to create a custom page.

- One of the widgets includes an html widget that allows more customization.
  - o You can track learner traffic with this widget
    - In his corporation, they found the most clicked was all clickable areas that start with “my” such as their pages *My Learning*, *My Dashboard* and *My Playlists*.
  - o This widget is also more responsive by allowing to establish breakpoints.
    - A breakpoint points to where you stretch the horizontal and vertical lines, which is key to responsive design.
    - He uses **Responsinator** to test responsive design.
    - Cannot get a lot of responsiveness if you mix using the HTML widget with other page creation widgets in Cornerstone.
- His corporation uses playlists to create a list of courses based on specific learner population learning needs.
- His corporation created a Leader Portal where anyone can go to learn leadership skills.
- He tried to match branding colors for his organization.

**Question to the team: Who uses Cornerstone as their Learning Management System?**

Nationwide

Huntington

Cardinal Health

The Ohio State University

**Question to the Team: What are other LMS's used by this group?**

Docebo

**Other Tools to Create Landing Pages**

SharePoint is another tool that can be used to create landing pages.

- This tool gives customizability

**LMS Reporting**

Idar

- This tool is used for ops reviews for monthly reporting
- This is a purchased product

Power Bi

- This is a tool used for compliance tracking
- This is a purchased product

Reporting 2.0

- Reporting tool used through Cornerstone and is included with the LMS
- Some users have experience frequent report crashing with this tool.

### **Acknowledgements and Test Out**

There is a need for some to deliver courses that require acknowledgements of agreement with their compliance courses.

- Using Storyline and creating acknowledgement in course, but learners couldn't get back to the course if the acknowledgement was completed in the middle of the course.
  - o In the future, will have the learners complete the course and then complete the acknowledgement.
  - o Cornerstone has a standalone acknowledgement feature that can be used with any courses added to the course.
    - This feature requires additional learner education to learn how this feature interacts with their learning transcript.
  - o Cornerstone has an e-signature feature
  - o Nationwide has an app they use to acknowledge policies and keeps track of compliance.

### **Creating and Distributing PodCasts**

- Nationwide creates podcast scripts and the editing is completed by Mindset Digital.
- Links to the podcasts are placed on SharePoint for others to access.
  - o Podcasts are not downloadable from this site.
- Other tools to edit Podcasts
  - o Audacity
  - o SharePoint (not using podcast feature currently, but is being used as a repository.)
  - o MS Streams
    - Will replace video space
    - Replacing Brightco with MS Streams
    - Support for audio is coming soon with this tool
    - If you change from mp3 to mp4, will load to MS Streams

### **Other Training Tools**

1. On-Board Software by Procell
  - Great user experience
  - More social
  - White boards
  - Private sessions
2. Train by Cell
  - Currently being used by COSI
  - Communicate by email or text & distribute content by subscribed groups
    - o Can schedule messages
    - o Has own mobile website
    - o Can schedule sequenced tips
3. Photo Pea

- A replacement tool for photoshop
- 4. Kimp
  - A replacement tool for photoshop
- 5. For Free Images
  - Pixabley
  - Splash Images
  - Pixlars
- 6. Davinci
  - A good tool for audio
  - This tool will configure based on if you use Premiere or other converter tool
- 7. Vlc media player
  - Another good audio converter tool

#### **Joe Suarz – Upcoming events**

- A new YouTube Channel = eLearning Outloud
- Has an upcoming Podcast interview with Jonathan Carter
- Cara North YouTube Channel = Unfiltered ID
- YouTube Channel = TLDC US

#### **Question to the Team: What format would be best suited for future SIG formats?**

- Like socializing in the safety of video
- Likes the efficiency of virtual meetings
- Heard on the radio
  - o People are more relaxed in a virtual environment
  - o Virtual meetings are more efficient

#### **Question to the Team: What about a hybrid SIG?**

- May need to think through carefully how to effectively conduct the meeting when trying to have an in-person meeting that contains a large group and individuals attending virtually.
- A choice may need to include either virtual or in-person. There seems to be a tendency to focus on what is in front of us.

#### **Question: How effective is the communication from the SIGs?**

- Like initial communication from SIGs.
- Like the reminders
- Would like to see text reminders
- Would like to have specific details regarding SIGs that have specific agendas
